Total Geographic Score: The total score for a geographic area is based on a composite score of all the measures. The measures are aggregated for each geographic area and then ranked against all other corresponding geographic areas. The geographic areas are ranked in ascending order with the lowest aggregate number receiving a ranking of 1.

Individual Measures and Rankings:				
Measure	Description	Time Period	Ranking	Source/Link
General:				
Unemployment	Measures the percent of Missouri labor force that was unemployed Missourians Unemployed: 162,328 Missouri Labor Force: 3,024,483	2005	Geographic areas were ranked in ascending order. A geographic area with the lowest unemployment in the state would receive a ranking of 1.	Missouri Department of Economic Development (United States Bureau of Labor Statistics) www.missourieconomy.org
Percent of Poverty	Measures the percent of the Missourians that were at or below 100% of the federal poverty level (FPL) Missourians below 100% of FPL: 735,642 Missourians Counted for Poverty: 5,670,868	2004	Geographic areas were ranked in ascending order. A geographic area with the lowest poverty in the state would receive a ranking of 1.	United States Census Bureau, 2000 Census www.census.gov
Per Capita Income	Measures the average personal income based on Missouri population Missouri Average Personal Income: \$30,475	2004	Geographic areas were ranked in descending order. A geographic area with the highest per capita income in the state would receive a ranking of 1.	Missouri Department of Economic Development (United States Bureau of Economic Analysis) www.missourieconomy.org
Percent of Single Parent Households with Children	Measures the percent of Missouri households with children under 18 that were headed by a single parent Missouri Households with Children Under 18 Headed by Single Parents: 228,377 Missouri Household with Children: 772,325	2000	Geographic areas were ranked in ascending order. A geographic area with the lowest percent of households with children in the state would receive a ranking of 1.	United States Census Bureau, 2000 Census www.census.gov
Percent of Births to Unmarried Mothers	Measures the percentage of all Missouri births that were to an unmarried mother Missouri Births to Unmarried Mothers: 29,669 Missouri Births: 78,547	2005	Geographic areas were ranked in ascending order. A geographic area with the lowest births to unmarried mothers in the state would receive a ranking of 1.	Missouri Department of Health and Senior Services, Missouri Information for Community Assessment (MICA) www.dhss.mo.gov
Percent of Births to Mothers Under 18	Measures the percentage of all Missouri births that were to mothers under 18 years of age Missouri Births to Mothers Ages Under 18: 2,660 Missouri Births: 78,547	2005	Geographic areas were ranked in ascending order. A geographic area with the lowest births to mothers under 18 years of age in the state would receive a ranking of 1.	Missouri Department of Health and Senior Services, Missouri Information for Community Assessment (MICA) www.dhss.state.mo.us
Percent of Population with High School Graduation	Measures the percentage of students that graduated from high school in Missouri Missouri High School Graduates: 58,355 Missouri High School Graduates and Dropouts: 68,076	2006	Geographic areas were ranked in descending order. A geographic area with the highest high school graduation in the state would receive a ranking of 1.	Missouri Department of Elementary and Secondary Education www.dese.mo.gov

Metropolitan Statistical Area or MSA	Metropolitan Statistical Area or MSA is defined by the United States Office of Management and Budget according to published standards that are applied to Census Bureau data. According to the 2000 standards, a metro area contains a core urban area of 50,000 or more population. Each metro area consists of one or more counties and includes the counties containing the core urban area, as well as any adjacent counties that have a high degree of social and economic integration (as measured by commuting to work) with the urban core. For the MSA Fact Sheets, only Missouri counties are used to present the measures.			www.census.gov
